TL SOLIDS Interaction Tool for Revit®
PRIVACY POLICY

September 15, 2020
About Us

eTLipse Computação, Engenharia e Responsabilidade Social Ltda. is a company located in Brazil, specialized in instruction, consulting and services of software development for the Architecture, Engineering and Construction Industry.

About Our Software

TL SOLIDS Interaction Tool for Revit® is a free add-in application that enhances the experience of Autodesk Revit® users when performing solids operations, visualization and selection of elements.

About Your Personal Data and Information

Once you have downloaded the TL SOLIDS installer from the Autodesk App Store®, by installing and running our software you are not asked for any kind of personal information or payment data.

Our software does not contain any kind of authentication or authorization feature and does not collect any kind of user information during its usage, being its code entirely focused on Revit® modeling transactions and processes.

Our software does not transfer or place in your computer any kind of data collection log files, such as cookies and other similar tools.

The only personal information we can access is provided by the Autodesk App Store® once the user has downloaded our product, being this personal information the following: nationality,
language, name, operating system, company name, e-mail, date, time and quantity of downloads, when provided by the user.

About the Usage of Your Personal Information
Aside from the Autodesk's own privacy policy, the usage of the aforementioned personal data is completely limited to eTLipse private researches and storage. No sharing or public usage is done with the user information provided by the Autodesk App Store®.

About Your Rights
You, as a user, are completely entitled to demand the retrieval, updating, transfer, consulting, retification and/or deletion of any of your personal data stored in any of our databases.

About This Policy
This Privacy Policy for this specific product maintain its effects until a newer one is released and approved by the Autodesk App Store®. We reserve ourselves the right to change or update its terms at any time, given the Autodesk App Store®’s approval as well.

About Our Contact
For any clarification, explanation, complaints, objections, criticism or suggestions, please, do send us an e-mail: info@etlipse.com.
